## NATIONAL TECHNICAL COMMITTEES (NTC) STRUCTURE

### Openness

- Collaboration that enriches the process to develop better content
- An open system in which participation is expanded to include a wide and relevant audience
- Participation without discrimination must be available at every stage of the standards development process
- SMMEs must be given meaningful opportunities to participate

### Impartiality And Consensus

#### Impartiality

- Decisions that are based on objective criteria rather than on the basis of bias, prejudice, or conferring the benefit to one organization over another for whatever reasons

#### Consensus

- General agreement
- Absence of sustained opposition to substantive issues by any important part of the concerned interests
- Seeking to take into account views of all parties concerned

### STAKEHOLDER ENGAGEMENT

- Necessity to involve players that may be materially affected by the standard's implementation *i.e Industry, government, consumers, NGOs*
- Role of members complemented by 'direct' engagement of relevant stakeholders
